

SLC-1037

Retail: \$169.00 – Your Price: \$107.00

Covert Black and White Camera

The SLC-1037 incorporates an extremely covert housing design, undetectable even at a close range. Our high resolution (420) line CCD board camera is designed into a stylish office wall clock. The clock has a quartz movement and is powered by one AA battery (included). A wide angle (3.6mm) lens provides a 18' vertical by 24' horizontal viewing range at 20'.

Lightweight and easily wall mounted, the camera kit includes a power adapter, 50' video-power cable, and mounting hardware. The integrated video-power cable allows the installer to place the power adapter at the end of the cable run (at the monitor, recorder, or multiplexer). The video connection is terminated with a RCA type connector to facilitate connection to monitors, recorders, or televisions with a video in jack.

Features (SLC-1037 B/W)
