Speaker Impedance Matching Transformer

The Bogen Model T725 transformer is speaker-matching transformer that allow an 8-ohm speaker to be connected to 70V or 25V amplifier outputs. An 8-ohm secondary connects to the speaker and the multi-tap primary connects to the 70V or 25V amplifier output.

The T725 can be tapped at 4, 2, 1, 1/2, 1/4, and 1/8 watts. All wires are easily accessible.

- **Allows an 8-ohm speaker to connect to 70V or 25V amplifier outputs**
- **T725 Power Taps: 4, 2, 1, 1/2, 1/4, 1/8 watts**
- **Easily-accessed, stripped and tinned wire terminations**
- **Small, compact, and cost-effective**
